## PROFILE

Computer Science and Engineering student at North South University with interests in cybersecurity, programming, Linux and problem solving. Motivated to strengthen core technical foundations through hands-on projects, continuous learning and responsible security practice.

## EDUCATION

**North South University** — Bachelor of Science in Computer Science & Engineering
Bangladesh · Undergraduate studies

## SELECTED PROJECTS

**PACT — Program & Accountability Console Tracker**
C-based console application using text-file storage to manage users, programs, tasks, subscriptions and administrator records.

**Space Invaders: Galactic Warfare – Deluxe Edition**
C/Windows console game project exploring game loops, keyboard interaction, collision logic and terminal rendering.

**Sirat — Your Islamic Life Companion**
Team-built Java Swing application featuring prayer, Quran, dhikr, habit, zakat, dua, goals and related tools; applies OOP, inheritance, role-based users and file handling.

**PassFort — Password Security Checker (planned)**
Planned Java learning project for password criteria validation and strength feedback.

## TECHNICAL SKILLS & LEARNING AREAS

Programming: C, C++, Java
Tools & systems: Linux/Fedora, Git, GitHub, VS Code
Concepts: Object-oriented programming, file handling, problem solving
Exploring: Cybersecurity fundamentals, networking, web security and AI fundamentals

## COURSES, CERTIFICATES & ACTIVITIES

- C Programming — 10 Minute School
- Basics of Management — 10 Minute School
- The Rise of Agentic Adversary — Cyberwarfare Labs
- Automating Passive Web Application Recon with n8n & AI — Cyberwarfare Labs
- Fire Safety Awareness — 10 Minute School
- Intellectus Olympiad participation; IQ Quiz at 3rd LKTW National Olympiad Expo 2026
- NASA Artemis II boarding pass and Message in the Stars participation items
